Illuminated Architectural Lettering System

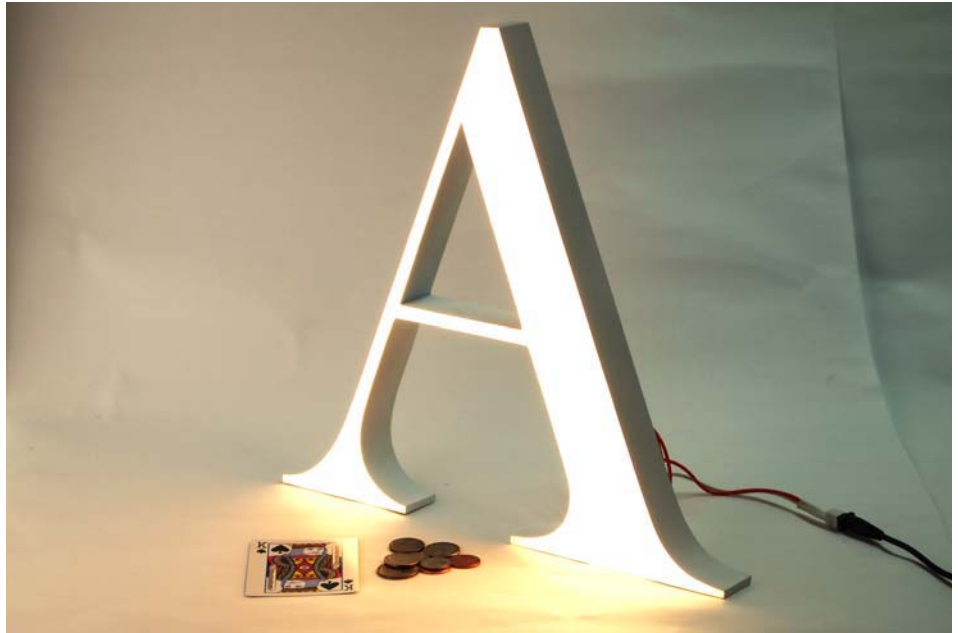

Introducing RESNO Illuminated Architectural Lettering System by BITRO.

RESNO = Cutting Edge Technology + Decades of Workmanship + Signage = Beautiful and stunning signage system that maximize advertisement effect and enhance brand image.

RESNO letters are characterized by thin profile, extremely clean makeup, state-of-the-art workmanship, stunningly bright and uniform illumination. Holding these letters are like holding a piece of jewelry in your hands. Ideal for retail and service storefronts, corporate headquarters, hospitals, lobbys, etc. It performs anywhere you need maximum visibility and image enhancement.

Letters can be facelit, halolit, facelit embossed, sidelit, or in combinations to produce desired effects for signages for indoors and outdoors.

Carefully selected use of quality LED system guarantees reliability, longevity, and color consistency.

Engage your customers with signage system that matches your brand
